## **Globe Token Whitepaper**

### ***Introduction***

This page should help newcomers understand the use of digital currencies and help better-spread knowledge about Globe Token. This whitepaper will be maintained for years to come and will be revised if necessary. It is free to use open source so you can edit however cannot plagiarize, only use it to gain knowledge and reword your own in your words!

### **G-NETWORK 3 WAY PUMP**

Globe Token's main feature is called G-Network a powerful 3-way pump designed to boost the price and market cap solely using liquidity. The G-network is based upon 3 assets BNB, OST, and AER. The idea is to expand the use of G-network to support upcoming projects, the G-Network has an implementation of POT aka proof of trust. Proof of trust ensures that even though the price might be manipulated it can reclaim its lost position based on the trust of the current market.

### **GLOBE**

**Globe token is a proprietary token based on financial well-being and to aid in spreading the use of digital assets around the globe. GLB is one of the very first tokens to provide a 3-way pump and use POT Proof of trust powers all of glb's transactions across a multimolecular market. The ideology of financial wellbeing is to 3x profits and multiply the value of the token.**

### **Financial**

**GLB is an asset that is designed to provide an economical eCommerce-friendly currency that subsidizes and helps boost the profits of initial buyers. The G-Network ensures that when someone buys it will be multiplied 3x what it was worth before thus bringing multiplied profits. POT is generally used in this area of glb because there is a certain level of trust needed to spend hundreds of dollars into the token.**

### **TOKENOMICS**

**Supply: 70m**

**Acronym: GLB**  
**Decimal: 18**  
**POT: Proof of trust**

## **Notes**

1. **G-Network is a 3way simple-to-understand pump that pushes GLB and other tokens on the GLB liquidity pools price up generally and financially helps the buyers.**
2. **POT is based on the trust of the current market – all buys are dependent on trust**
